

SEATTLE BIOMEDICAL RESEARCH INSTITUTE PRESENTS

GLOBAL HEALTH TRIVIA NIGHT

Which local scientist developed a vaccine against smallpox?

What virus is this?

Put your brain to the test and get the
GLOBAL HEALTH FACTS.

Team up with LIKE-MINDED PEERS who care about global health. Test your knowledge and LEARN SOMETHING NEW.

FREE FOOD & DRINK • PRIZES • BRAIN-BUSTING TRIVIA

Thursday, Feb. 24
5:30 - 8:00 p.m.

Seattle BioMed Building, 307 Westlake Ave. North

Q: WHO WILL YOU MEET?

A: AT OUR FREE NETWORKING RECEPTION, meet everybody who wants to be somebody on the global health scene. From business pros to scientists to friendly neighbors.

Q: WHAT WILL YOU LEARN?

A: WHEN THE TRIVIA BATTLE BEGINS, you'll learn all about global health, Seattle BioMed's infectious disease research, and a plethora of mind-blowing facts to keep in your pocket next time you're looking to impress.

RSVP by Monday, Feb. 21, to meredith.boyd@seattlebiomed.org.

Seattle BioMed envisions a world free from the threat of infectious disease. Our research is the foundation for new vaccines, drugs and diagnostics that will benefit those who need our help most: the 14 million who will otherwise die each year from infectious diseases. Visit us online at www.seattlebiomed.org.
